MIRZA SHAREQULLAH BAIG

Aurangabad, Maharashtra, India | +91 9762108611 | shareque@outlook.com | linkedin.com/in/mirzashareque

TECHNICAL ARCHITECT (.NET) | APPLICATION DEVELOPMENT | TEAM MANAGEMENT

.Net Core | C# | SQL Server | EF Core/Dapper ORM | Angular | Rabbit/Kafka MQ | Redis | Android Native (basic)| Test Driven Development | SOLID Principle | Orchestration/Choreography| OOPs Design Patterns | Delivery Management | Maintenance | Unit Testing | Agile Methodology | DevOps CI/CD| Vibe Engineer | Training & Development

Technical Architect, Senior Full Stack Engineer Lead & AI-Augmented ("Vibe") Engineer with over 12+ years of experience building and scaling enterprise web applications and distributed Microservices from scratch.

Specialized in .NET Core, Angular, React.js, Windows Services, SQL Server, Dapper ORM, and Redis DB. Proven expertise in designing event-driven architectures using Kafka, RabbitMQ, and the Saga Pattern, alongside secure identity management (SSO, Keycloak Auth), S3 Storage, GitHub Actions, and automated CI/CD pipelines. Early adopter of AI-assisted engineering workflows, leveraging Claude Code, Codex, Antigravity CLI, Ollama, ChatGPT, and Perplexity to accelerate rapid prototyping, automated refactoring, and complex system architecture.

Demonstrated track record of leading cross-functional teams, authoring comprehensive technical/architectural and requirement documentation, and delivering mission-critical government and commercial solutions.

TECHNICAL SKILLS

- **Languages & Frameworks:** C#, .NET / .NET Core (5–9), ASP.NET Web Forms, Web API, Blazor, Java (Android Native basic)
- **Frontend:** Angular (7–10), React.js, Bootstrap, HTML5, jQuery
- **Data & Messaging:** SQL Server, Oracle Cloud, MySQL, PostgreSQL, EF Core, Dapper ORM, RabbitMQ, Kafka, Redis
- **Architecture & Practices:** Microservices, Orchestration/Choreography Saga Pattern, SOLID Principles, OOP Design Patterns, Test-Driven Development, Unit Testing, Agile/Scrum
- **DevOps & Delivery:** CI/CD Automation, Github Actions, Cloud & On-Prem Deployment, SSO Authentication, Centralized Logging, Argo CD, Docker.
- **Leadership:** Team Management, Mentoring, Sprint Planning & Estimation, Client Requirements Gathering, Technical Documentation
- **AI Tools:** GitHub copilot, Claude Code, and Antigravity

EMPLOYMENT CHRONICLE

APPLLIGENT TECHNOLOGIES PRIVATE LIMITED | JAN 2024 – JUN 2026

Senior Full Stack Developer / Technical Lead (Full time | C2H)

Clients: **Al Sahab National (Riyadh, KSA)**

- Led end-to-end delivery of enterprise applications for government entities (SRCA, Ministry of Commerce, Ministry of Health) and core products TAQFI (vehicle tracking) and WAREED (medical education platform).
- Architected an IoT-driven smart traffic signal system integrating real-time ambulance tracking to trigger automated green corridors and reduce emergency response times.
- Engineered high concurrency microservices in .NET Core with RabbitMQ, Redis, and multi-database (SQL Server, Oracle Cloud) backends.
- Managed deployment workflows across client VMs, cloud, and on-prem servers in coordination with DevOps CI/CD to ensure zero-downtime releases.
- Led Agile/Scrum planning – effort estimation, sprint scoping, task assignment, and cross-functional QA coordination.

EDUSUITE SOLUTIONS PRIVATE LIMITED | NOV 2022 – DEC 2023

Senior Full Stack Developer / Technical Lead (Full time | C2H)

Clients: **Al Sahab National (Riyadh, KSA)**

- Led end-to-end delivery of enterprise applications for government entities (SRCA, Ministry of Commerce, Ministry of Health) and core products TAQFI (vehicle tracking) and WAREED (medical education platform).
- Architected an IoT-driven smart traffic signal system integrating real-time ambulance tracking to trigger automated green corridors and reduce emergency response times.
- Engineered high-concurrency microservices in .NET Core with RabbitMQ, Redis, Saga pattern and multi-database (SQL Server, Oracle Cloud) backends.
- Managed deployment workflows across client VMs, cloud, and on-prem servers in coordination with DevOps CI/CD to ensure zero-downtime releases.
- Led Agile/Scrum planning – effort estimation, sprint scoping, task assignment, and cross-functional QA coordination.

EFFIASOFT PVT LTD | DEC 2022 – MAR 2025

.Net Consultant (Part time | C2H)

Clients: **MariApps Marine Solutions Pvt. Ltd**

- Directed backend architecture and delivery for cruise-industry products (SeaRoster, JB Cruise, Plexus Blazor app) using .NET 5/6 Web APIs, React.js, Blazor, and Dapper ORM.
- Managed continuous deployment to staging and client infrastructure, and mentored trainee developers on OOP and enterprise best practices.
- Mentorship, training and guiding to new fresh joiners.

REDBYTES SOFTWARE PVT LTD | MAR 2021 – DEC 2022

Technical Architect

Clients: **Infionic Inc and EffiaSoft Pvt. Ltd**

- Led migration of an enterprise application from legacy .NET Framework 4.8 to .NET 5, redesigning core modules with Web API, React.js, and SQL Server 2019.
- Established continuous delivery standards with DevOps and upskilled backend engineers into React.js front-end development.
- Produced comprehensive technical documentation, including target-state architecture diagrams, database designs, API specifications, and functional implementation guides.
- Drove technical decision-making and client engagement, leading requirement analysis, effort estimation, solution scoping, unit testing, and cross-functional QA alignment.

DREAMS CREATION ADVERTISING | FEB 2017 – FEB 2021

Project Development Manager

- Owned full SDLC execution and system architecture across 18+ internal ERP modules (HR, Outdoor, Accounts, Marketing); optimized **SQL performance and directed production support and SSRS/RDLC reporting.**
- Produced bundle of applications which helps company workflow and stabilize loads and production.

ITBEES TECHNOLOGIES | MAR 2012 - JAN 2017

Senior Web Application Developer

- Delivered full-cycle web and mobile solutions across manufacturing, slot dispatch systems, e-commerce, and enterprise clients; built reusable framework components adopted as company-wide coding standards.

PROJECTS

- **WAREED (Al Sahab, KSA) – Team 10**: Healthcare training platform – Angular, .NET 9, microservices, message queues, and caching. Senior full-stack developer; feature delivery and DevOps CI/CD observation.
- **AVL System (Al Sahab – SRCA, MC, MoH, KSA) – Team 5:** Multi-client GPS vehicle tracking system – .NET 8 microservices, Windows Service, Angular, SQL Server, Oracle Cloud.
- **TAQFI System (Al Sahab, KSA) – Team 4:** GPS tracking platform with Windows Services processing device data – .NET 8 microservices, Angular, SQL Server, Oracle Cloud; coordinated with IoT team on device integration.
- **Traffic Control with Ambulance (Al Sahab – SRCA, KSA) – Team 6:** Smart traffic signal system integrating CAD incident data and 3rd-party signal control – .NET 8, Windows Service, Angular, SQL Server.
- **Plexus File Manager (MariApps, Cyprus) – Team 4:** Custom Blazor file manager extending an ERP system using DevExpress XAF/XPO – .NET 6, C# 9, Blazor Server; upgraded platform to .NET 6/Bootstrap 5.
- **Sea Roster (MariApps, Singapore) – Team 14:** Cruise employee scheduling/reporting mobile-backed app – .NET 6, Web API, microservices (Ocelot, Repository pattern). Backend tech lead.
- **Plexus ERP (MariApps, Cyprus) – Team 6:** ERP migrated from ASPx WebForms (DevExpress XAF) to .NET 5 Blazor – Blazor Server, DevExpress Blazor, SQL Server. Team lead.
- **On Premises CA Web App – Team 6:** Client-consultant enrollment/consultancy platform – Web API Core 3.1, C# 9, Angular 10, PostgreSQL. Team lead, architecture, database design.
- **Data Simple QMS (Pharma QA) – Team 14:** QA management ERP for pharmaceutical companies – .NET 5, C# 9, Web API Core, React JS, SQL Server 2019. Tech lead and architecture.
- **HAPis ERP (School Management System) – Team 5:** 12-module school ERP (Admission, Fees, Accounts, Library, Transport) plus 3 Android native apps – .NET Core 3.1, Angular 7–10, SQL Server. Tech lead & Android developer.
- **HoardingOnline – Team 4:** Outdoor advertising rental platform for campaign creation and online payments – C# 8, Web API 2.0, Angular 10, SQL Server. Tech lead & architecture.
- **Dreams Vision ERP – Team 8:** 18-module in-house ERP connecting HR, Outdoor, Accounts, and Marketing – C# 7, JavaScript, jQuery, SQL Server, Android, CefSharp. Tech lead & architecture.
- **Media Vision (Tax Permission App) – Team 2:** Advertising tax, permissions, and invoicing management system – ASP.NET Web Forms, C# 7, SQL Server.

- **TMS (Task Management System) – Team 4:** Project lifecycle tracking system with messaging and task supervision – C# 7, ASP.NET Web Forms, SQL Server. Team lead & architecture.
- **AS11 Gaming (eSports Tournament App) – Team 2:** Real-time PvP tournament organizing platform with private rooms, registrations – C# 7, ASP.NET Web Forms, Android Native Java.
- **AsStore (E-Commerce Portal) – Team 3:** Daily-needs e-commerce portal with discounts and deals – C# 7, ASP.NET Web Forms, SQL Server.
- **OffoShop (E-Commerce Platform) – Team 2:** Local platform for sellers to list discounted products – C#, ASP.NET Web Forms, SQL Server 2012.
- **PTPA – Bajaj Auto Parts (Metal Man) – Team 6:** Production tracking and productivity analysis system for manufacturing units – C#, ASP.NET Web Forms, SQL Server 2008 R2.
- **PTPA – Varsa Colgate – Team 6:** Plant-level production tracking and reporting application – C#, ASP.NET Web Forms, SQL Server 2008 R2.
- **Garware Polyester – B-Grade Management (BGM) – Team 8:** System analyzing B-grade stock and reuse suggestions – C#, ASP.NET Web Forms, SQL Server 2008 R2.
- **AMDS-V (US Client) – Team 8:** Machine alert dispatch system v5 with iPhone hybrid app integration – C#, ASP.NET Web Forms, WCF, Hybrid iOS App, PhoneGap, Windows Services.
- **Disha Group (CMS Website):** Web-based CMS showcasing company projects and information – C#, ASP.NET Web Forms, MySQL.
- **IRMM (Sanjay Group):** Production supervision and reporting system for manufacturing workflow – C#, ASP.NET Web Forms, MySQL, Windows Services.
- **Garware – Defect Recording System (DRS):** Defect tracking system for monitoring production issues – C#, ASP.NET Web Forms, SQL Server 2008 R2.

EDUCATION OVERVIEW

- **Master of Science (Computer Science)** | 2018
  Higher Learning, Dr. Rafiq Zakaria Campus, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad
- **Bachelor of Science (Computer Science)** | 2016
  Maulana Azad College, Dr. Rafiq Zakaria Campus, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad
- **Diploma in Business Management (Hindi)**| 2012
  IHTM, Aurangabad, Maharashtra
- **Senior Secondary Certificate** | 2004
  Maulana Azad Junior College, Dr. Rafiq Zakaria Campus, Aurangabad, Maharashtra
- **Higher Secondary** | 2002
  Little Star English High School, Aurangabad, Maharashtra
